Subject: RE: next meeting on the Tower Standard/Haskell Lake site with all parties

Hi Kristen,

I don't, and I don't have a proposed date yet either for a technical meeting. I will need a little more time to digest what I have, plus as you stated, we don't quite have everything we want as far as field data. Next week will be too soon, I think. One of our goals is to make sure we have all information well in advance of meetings so we are all prepared to discuss specifics.

Also, I know that Chris Saari is trying to catch up on everything. We may need to wait until he is ready. I will ask him if he has any projected dates he'd like to suggest as a way to make sure we don't let too much time pass before we get together.

Chris sent me a message this morning that I will forward to you regarding hydraulic conductivity testing of the 17 wells. He received a cost proposal for that work and asked for input/comments. Please take a look at it and let me know what you think. This will be helpful information when we it's completed.

Lastly, I plan to have our task order (for data review and field work) written today for submittal to HQ. I will forward it to you.

Bob

Subject: FW: next meeting on the Tower Standard/Haskell Lake site with all parties

Hi Bob,

Do you have an Agenda? We would expect to be provided all WDNR site files and available information in advance of this meeting.

Subject: next meeting on the Tower Standard/Haskell Lake site with all parties

Hi Kristen,

Tomorrow I will be attending the meeting with our management and DNR management in Madison.

John Robinson proposed a meeting date of Feb. 15 for all parties to discuss what we know about the site and next steps. I assume that Margaret will call Larry to fill him in on our meeting. What chance do you think there is that Larry would want get together with all parties to discuss the site on 2/15?

I anticipate that DNR will ask tomorrow whether we have spoken to LDF Natural Resources about the next meeting.

Thank you.
